Eurobike 2025 is coming — and with it, a bold call to action for the cycling industry. As Europe's leading bike show challenges manufacturers to adopt more sustainable and circular practices, one thing is clear: lowering your production carbon footprint starts with better materials and smarter solutions.

At **the sppot**, we believe it's time to move from conversation to implementation. Don't miss the opportunity to meet our team of experts from [TIGER Coatings](#) / [Berlac AG](#) / [Eurotherm S.p.A.](#) / [Duthoo](#) / [coatmaster](#) — all ready to help you navigate the future of **eco-friendly, high-performance surface finishing**.

Book a meeting and explore how your bike production can become smarter, cleaner, and more sustainable — from coatings to controls.

Location: [Hall 9.0 Booth G29](#)
