

BASCOREP/BASCOREP READY MIX COLD PLASTIC

YOUR BENEFITS AT A GLANCE

- Solvent-free
- Rapid reopening to traffic
- Permanent repair
- High elasticity
- Good resistance to de-icing salts
- Excellent price-performance ratio

FOR QUICK AND PERMANENT REPAIRS

Potholes and loose or raised manhole covers pose potential hazards for road users.

Early repairs can help prevent accidents and falls. Using **BASCOrep** products allows such damaged areas to be repaired quickly, cost-effectively, and permanently.

TECHNOLOGY DESCRIPTION

BASCOrep and **BASCOrep ready mix** are solvent-free two-component cold plastics based on reactive methacrylate resins. These products can be used universally for permanent repair applications.

BASCOrep ready mix is a ready-to-use application that already contains a defined quantity of quartz sand. No additional mixing on site is required.

AREAS OF APPLICATION

BASCOrep products feature a durable, abrasion-resistant, and weatherproof coating that allows obstacles such as manhole covers or steps to be seamlessly levelled with the surrounding surface. They can also be used to fill road manholes or small potholes.

BASCOREP – PRODUCT PROFILE

Application	Spatula, pouring
Substrates	Asphalt, concrete
Structure	Dependent on the substrate See technical data sheet for further information
Consumption	Approx. 2.0 kg/m ² per 1mm layer thickness
Colours	Grey
Special features	<ul style="list-style-type: none">• Sustainable system• Versatile in use• Outstanding environmental performance

BERLAC AG – FOR THE DECISIVE ADDED VALUE OF YOUR PRODUCTS

For almost 100 years, Berlac AG, part of the Berlac Group, has specialised in the innovative development and agile distribution of high-quality road and surface markings as well as special and effect coatings for products made by internationally renowned brand manufacturers.

With innovative niche solutions for the watchmaking, eyewear, and automotive industries as well as for the household, health, sports, and road-marking sectors, Berlac has become synonymous with the highest quality and is now one of the world's leading companies in the industry.
