## COLD SPRAY PLASTIC

### FOR IMPROVED VISIBILITY AND SAFETY IN ROAD TRAFFIC

Road markings play an important role in making roads safer.

Road markings guide pedestrians, cyclists, cars, and buses safely along their way. Especially in fog, wet conditions, and darkness, they show drivers the correct lane. Linear markings divide the traffic into different lanes and directions of travel. Road markings are an economical and effective method of traffic guidance and control and work together with other road guidance systems.

#### TECHNOLOGY DESCRIPTION

**BASCOLin** two-component cold spray plastic is solvent-free and based on reactive methacrylate resins. It is suitable for a wide range of permanent marking applications and can be applied by machine spray (low-pressure or airless).

#### AREAS OF APPLICATION

**BASCOLin** is suitable for asphalt or concrete surfaces and is used for marking work on motorways as well as on roads and squares in public or private areas. The field of application for cold spray plastic is almost unlimited and includes permanent markings for edge and centre lines as well as pedestrian crossings.

#### YOUR BENEFITS AT A GLANCE

- Solvent-free
- Rapid machine processing
- Rapid reopening to traffic
- Lasting quality for two to three years (depending on traffic and layer thickness)
- Weather-resistant

## BASCOLIN – PRODUCT PROFILE

Tested according to/in	BAST, Aetec, BG, PL, RC
Substrates	Asphalt, concrete
Structure	Dependent on the substrate See technical data sheet for further information
Application	Airless and air-atomised application
Colours	<ul style="list-style-type: none"><li>• White</li><li>• Yellow</li><li>• Other colours (RAL) on request</li></ul>
Special features	<ul style="list-style-type: none"><li>• Sustainable system</li><li>• Versatile in use</li><li>• Outstanding environmental performance</li><li>• Compatible with 98/2, drop-on beads, and the Basler On Line System</li></ul>

## BERLAC AG – FOR THE DECISIVE ADDED VALUE OF YOUR PRODUCTS

For almost 100 years, Berlac AG, part of the Berlac Group, has specialised in the innovative development and agile distribution of high-quality road and surface markings as well as special and effect coatings for products made by internationally renowned brand manufacturers.

With innovative niche solutions for the watchmaking, eyewear, and automotive industries as well as for the household, health, sports, and road-marking sectors, Berlac has become synonymous with the highest quality and is now one of the world's leading companies in the industry.
